About This Game

The year is 1998 and in the small town of Goodbury, a mysterious business man just bought the local newspaper. He fired everyone already working there, and hired you to rebuild the paper as the new Editor-in-Chief.

Above the Fold is a newspaper simulation game, where you grow and manage a newspaper. Hire the right reporters, assign them stories they like to write, and make sure to please advertisers, subscribers and the paper's owner. You also need to upgrade your paper and balance the finances - make sure to save a bit of cash in case you need to bail a reporter out of jail, or fix a plumbing issue.

Can you grow this unknown rag into an international household name?

- Hire and manage a staff of reporters
- Assign them stories that fit their interests
- Prioritize the stories you want on the front page
- Get new subscribers for the newspaper
- Buy upgrades for your office

-
- Handle random and historic events
 - Please advertisers and the mystery Owner
 - Become the leader of a world famous media outlet!

not bad, but could use some more flexibility in combining tile pieces for more variety. Reminds me of the classics. I really enjoyed the game.. BAD COMMENT***

Two of my computers can't pass the test.

AVG anti-virus detected it is inflected while the GIMP section loading fonts. I need to turn off the anti-virus.

I also can't pass the test because it has a error at the last multi media section.. Bought this game as it looked pretty good from the screenshots. Played it for about 5 minutes and couldn't bear to play it any more, the controls seemed very unresponsive and the gunfights were awful. Also had graphics issues were textures were missing. Simple, relaxing, and at times challenging. Most the strands are easily solved with spacial reasoning but I found an analytical approach helpful for those that were too complex to manipulate in my head (ymmvm).. Well this game is bloody amazing.

Wish I knew it was out sooner, This is truly a hidden gem on Steam.

You use a basic mechanic of creating platforms that stay underneath you as long as you hold the button down.

You can walk, and the platform moves with you. But only for a short time.

You are usually given 1 or 2 that you can create after a jump (the levels show you how many platforms you can make in mid-air)

That's just the basic, though.

There are several different types of plarforms you earn as you complete entire stages, there's a meter needing 130 crystals, once you earn them - and beat all the levels in that stage - you can unlock a new platform, and move on to the next set of levels.

They add layers into the basic mechanic that really make you think.

Also, you collect little triangles, they usually pose a puzzle challenge in how to get them- and get away without taking damage , because if you get hit after grabbing one, it resets.

There's also lightbulbs, you "surf" your platforms through, breaking them ; which causes flowers to appear higher up in the level. That is what you need to collect in order to advance.

You can take 3 hits (or more, depending on powerups, etc)

When you take a hit, you are sent back to the furthest checkpoint in the stage (even if you backtrack to the bottom, and then get hit - you are sent to the last checkpoint you reached progression-wise.)

When you exhaust all your hearts, you are sent back to thestart of the level, and lose a life - but the level remains , all the stuff you did in it is still done , you're just missing a life, and have to re-climb up.

The visual style is simplyamazing, it's very colorful, neon, very fun to look at it all unfolding.

Absolutely recommend this to game, it is simply a gem.

. This is a lovely little game, which I would describe as more of an interactive storybook. The mechanics are quite simple: you guide a little spirit on her quest to find out who she is and what became of her. The real pleasures here are in the evocative visuals and especially in the beautiful Celtic music. It may be a short game, but I legitimately got a little choked up at some of the endings.. Hunter:

Shotgunspam
AR Spam
Invisability
Turretsspam
Minesspam
Camping bodies
=Profit

Runner:
Four friends in discord cordinating perfectly

= Profit

Basically. Any questions? No? Cool.

. i was pleasantly surprised by this game. liking the story so far, and most of the puzzles are interesting, although i had to look up some of the solutions in the walkthrough.

but the best thing is the soundtrack, the tracks are absolutely fantastic, they provide a great atmosphere.

if i had to choose a negative, it is the lack of proper proofreading, I encountered a few strange english sentences which should be fixed.

Its a direct copy of the mobile/tablet version. Its not full screen and the window cant fit on a wide screen monitor. There is no support/multiplayer outside of passing the mouse to your friend and. I still feel ripped off.. A very good and well polished indie brazilian game. It can be challenging at times, but I haven't felt the challenge to be unfair. The boss mechanics may sometimes seem hard, but just as vintage beat'em up, it is a mater of understanding their patterns and working around them.

If I had to critique something, it would be the length, yet the many characters and their peculiarities make up for that in replayability.

9/10 Would buy again. It wouldn't even let my launch the game for it kept freezing everytime I kept trying to start the game. I will not download this game ever again since it won't even launch, so yea.... Dude this game is really fun. I think I'm gonna end up becoming addicted! I would say there is a lack of music, but that may be personal preference. Also, the way the screen moves with your mouse makes it harder for me, but it may be personal preference again. Overall, I've really enjoyed what I've played! So glad it was cheap, cause otherwise I wouldn't have been able to play! Good job dude!. Hello friends! This dlc adds in new costumes from knight armour, to samurai armour. There is even a new warrior princess outfit.

Recommended for adding new costumes for your saints.. I can't remember when I've hated the story in a HO game as much as I hated this one. The endless (terrible) cut scenes were excruciating. I normally don't skip these in case watching them all is an achievement, but about halfway through I couldn't take it any longer and started skipping them all. But what finally infuriated me beyond redemption was when the game suggested that a woman is a bad mother if she dares to tell her child to do a chore rather than doing that chore herself and then using her few remaining free moments to indulge her child's every whim. Like mothers don't have it hard enough without poorly written, cheapo games trying to guilt them for teaching their child some responsibility. If you want to play a game with a great mother/daughter relationship, I can't recommend Nightmares from the Deep enough. Give this one a pass.

Massive discounts on all of our titles (READ):

The Summer Heat is here and with that the Sales are in our face until July 4th so take these discounts while you can ;) If the Steam store page is taking to long to load sorry it's because the sales and many people are downloading their new games.
